THE BOAT

At the heart of countless family adventures

This Cutwater C-28 has created the kind of memories that make boating so special. With the family ready to move into a larger boat, she is ready for her next chapter and a new family to enjoy everything she has to offer.

Designed as a family cruiser, the C-28 combines performance, comfort, efficiency and classic Down East styling in a versatile package. Cutwater's signature Keel Stepped Hull Design, paired with a Volvo Penta D4 diesel, delivers a comfortable ride, responsive handling and impressive fuel economy.

Bow and stern thrusters and a second steering station in the cockpit make her easy to handle, and her trailerable design opens up cruising grounds well beyond her home waters.

Comfortable, capable and easy to handle — ready to take her next owners wherever their boating adventures lead.
